PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience architecting and shipping production SaaS applications end-to-end. Strong command of the TypeScript / React / Next.js stack on the frontend, and Node.js, Express, and Next.js API routes on the backend. Designed and deployed multi-tenant platforms featuring authentication (NextAuth, JWT, OAuth, 2FA), subscription billing (Stripe, Lemon Squeezy), and relational + NoSQL databases (PostgreSQL with Prisma on Neon, MongoDB with Mongoose). Experienced integrating third-party APIs (ClickUp, Notion, Google, Cloudinary, Resend) and deploying on Vercel. Focused on performance, clean architecture, and delivering measurable product value.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript (ES2023), SQL, HTML5, CSS3
Frontend	React 19, Next.js 15 / 16 (App & Pages Router), Redux, Zustand, React Query / TanStack Query, Tailwind CSS 4, shadcn/ui, Radix UI, Ant Design, Bootstrap 5, Styled Components, Three.js, Framer Motion
Backend	Node.js 20, Express 5, Next.js API Routes, REST APIs, Server Actions, WebSockets, Nodemailer, Resend
Databases & ORMs	PostgreSQL (Neon, Supabase), MongoDB (Atlas), Mongoose, Prisma, Firebase / Firestore, Upstash Redis
Auth & Security	NextAuth.js, JWT + refresh tokens, OAuth 2.0 (Google, GitHub, ClickUp), bcrypt, 2FA (TOTP / speakeasy), Helmet, CORS, Zod validation, rate limiting
Payments & Billing	Stripe (subscriptions, webhooks, Checkout), Lemon Squeezy, SSLCommerz
Cloud & Storage	Cloudinary (media uploads & transforms), Firebase Storage, AWS S3 basics, Vercel Blob
DevOps & Tooling	Git / GitHub, Docker, Docker Compose, pnpm monorepo / workspaces, ESLint, Prettier, Vercel, Netlify, Render, Railway, CI/CD via GitHub Actions
Testing & Quality	Jest, React Testing Library, Postman, type-safe contracts with Zod / TypeScript
Integrations	ClickUp API, Notion API, Google APIs, OpenAI API, WalletConnect (Web3), Recharts, Ant Design Plots
Methodologies	Agile / Scrum, code review, feature-flagged rollouts, multi-tenant SaaS architecture

PROFESSIONAL EXPERIENCE

Junior Full Stack Developer — Dorik

- Remote · Middletown, Delaware, USA (HQ)02 Nov 2025 – Present
- Contribute to Dorik's no-code website builder SaaS across frontend (Next.js) and backend (Node.js / Express) layers.
 - Built the Time Tracker platform end-to-end: authenticated REST API on Express + MongoDB, admin/analytics dashboards in Next.js + Ant Design, and ClickUp OAuth integration for automated time-entry sync.
 - Architected the project as a pnpm monorepo (apps/api, apps/web, packages/shared) with type-safe contracts and shared enums.
 - Implemented JWT auth with refresh tokens, role-based access control (admin, manager, member), and seed scripts for demo and production environments.

Frontend Developer (Full-Stack Capable) — Bangla Puzzle Limited

- Shamoly, Dhaka, Bangladesh01 May 2024 – 15 Nov 2025
- Delivered 6+ production web applications spanning media, e-commerce, medical imaging, and hospitality sectors.
 - Owned frontend architecture (React, Next.js, TypeScript, Tailwind) and collaborated on backend API design, authentication, and database modeling with Node.js, Express, MongoDB, and Firebase.
 - Integrated payment gateways, cloud media (Cloudinary), and REST APIs; optimized Core Web Vitals and Lighthouse scores across client sites.
 - Mentored junior developers on component architecture, state management patterns, and Git workflow.

KEY FULL-STACK PROJECTS

Tally — Form Builder SaaS tally-clone.vercel.app

[Next.js 16](#) · [React 19](#) · [TypeScript](#) · [Prisma](#) · [PostgreSQL \(Neon\)](#) · [NextAuth](#) · [Stripe](#) · [Lemon Squeezy](#) · [Cloudinary](#) · [Upstash Redis](#) · [Resend](#)

- Architected and built a production-grade form-builder SaaS (frontend + backend) with drag-and-drop form designer (dnd-kit), rich-text editor (Tiptap), and real-time preview.
- Designed the full PostgreSQL schema with Prisma (Users, Organizations, Workspaces, Forms, Submissions, Billing, API Keys, Custom Domains) — 20+ relational models with multi-tenant isolation.
- Implemented authentication: NextAuth.js with credentials + OAuth, JWT refresh tokens, bcrypt password hashing, and 2FA (TOTP via speakeasy + QR code provisioning).
- Integrated dual payment providers: Stripe (Checkout, subscriptions, webhooks) and Lemon Squeezy, with plan-gated features (free / pro / business).
- Built Cloudinary pipeline for file uploads, Upstash Redis for rate limiting, Resend + Nodemailer for transactional email, and Notion / Google API integrations for form submission export.
- Deployed on Vercel with serverless API routes, Prisma Accelerate for connection pooling, and Docker Compose for local development.

Dorik Time Tracker — SaaS Time Tracking Platform Internal / Dorik

[Next.js 15](#) · [Express 5](#) · [TypeScript](#) · [MongoDB](#) · [Mongoose](#) · [JWT](#) · [Ant Design](#) · [Recharts](#) · [ClickUp OAuth](#) · [pnpm monorepo](#)

- Built a standalone multi-tenant time-tracking SaaS end-to-end (backend REST API + web dashboard) as a pnpm workspace monorepo.
- Designed MongoDB schema with Mongoose for Users, Organizations, Projects, Tasks, Time Entries, Invitations, and OAuth tokens.
- Implemented role-based auth (admin / manager / member), JWT with refresh rotation, secure password hashing (bcrypt), Helmet security headers, and CORS.
- Integrated ClickUp OAuth 2.0: authorization flow, token refresh, and scheduled time-entry synchronization with the ClickUp API.
- Built admin analytics dashboards with Ant Design, Recharts, and react-big-calendar (daily / weekly / monthly breakdowns, project-level reports).
- Shipped seed scripts for first-admin bootstrap and reproducible demo data.

AI Web Screenshot API webscreenshotapi.vercel.app

[Next.js](#) · [TypeScript](#) · [Puppeteer](#) / [headless browser](#) · [Serverless functions](#)

- Designed and shipped an AI-assisted API for on-demand website screenshot capture with configurable viewport, delay, and output formats.
- Built both the public documentation site and the serverless API layer; deployed on Vercel.

Jhirun E-commerce Platform jhirun.com

[Next.js](#) · [Node.js](#) · [MongoDB](#) · [Firebase](#) · [Cloudinary](#) · [Payment gateway](#)

- Bangladesh-focused multi-category marketplace (fashion, electronics, home goods) with cart, checkout, order management, and admin panel.

Other Client Deliverables

- **OHIF Viewer** — contributions to the open-source medical DICOM imaging platform (React). [viewer.ohif.org](#)
- **Khagrachari Pratidin** — regional newspaper frontend with CMS-driven content. [khagracharipratidin.com](#)
- **Shat Rong Gents Parlour** — brand and services site for a parlour + training chain. [shatronggentsparlour.com](#)
- **Black Craft Resort & Restaurant** — hospitality brand site.

EDUCATION

Degree	Major	Institute	Result	Year
B.Sc.	Computer Science & Engineering	Rajshahi Science & Technology University, Natore	3.15 / 4.00	2020
Diploma	Computer Technology	Dinajpur Polytechnic Institute	3.16 / 4.00	2016
SSC	Science	Khamar Khorikadam High School	4.81 / 5.00	2011

CERTIFICATIONS & TRAINING

- **Complete Web Development (MERN Stack)** — Programming Hero, Dhaka (Dec 2023 – Aug 2024)
- **APTICS Spoken English** — Sheikh Kamal IT & Incubation Center, Natore (2018, 3 months)

LANGUAGES

Bangla — Native (Reading, Writing, Speaking: High) **English** — Professional working proficiency (Intermediate)

CAREER PREFERENCES

Open to: Full-Time | **Work Model:** Remote, Hybrid, On-site | **Level:** Mid-level Full Stack Developer
Preferred locations: Dhaka, Australia, Canada, Germany, Japan, Norway, UAE, UK, USA
Organization types: Product / SaaS companies, Software firms, IT-enabled services, Multinationals, Overseas product teams
